Thus Spoke the Monkey
5,000 Years Ago and Now
Current Events

By Arthur Brisbane
Copyright, 1924, by Hearst Syndicate
O'NE good thing may come of Mr. Bok's famous peace plan, which is a rebuke of the World Court and the League of Nations, poorly rewritten. That marvelous peace plan will probably result in the killing of the World Court in the Senate. A foolish thing can always be talked to death, and although it wasn't what he planned, Mr. Bok has rendered a valuable service. Neither President Coolidge nor any responsible Senator will tack himself on behind a preposterous belittling on a preposterous proposition.

MOVING picture people, among other qualities, include speed and generosity. Charles M. Schwab, whose executive smile and big personality sold many a battleship, met the moving picture men at luncheon yesterday to ask about a little contribution for the Harding memorial. Schwab said he wanted \$10,000 from the moving picture, and \$10,000 from New York's newspapers. W. R. Hearst had already sent him \$1,500, which left only \$8,500 to come from other newspapers.

WHEN SCHWAB had finished, Mr. Zukor, who organized the "come across" luncheon, announced that the ten thousand dollars had been subscribed while Mr. Schwab was talking. Mr. Schwab said Mr. Mellon, President Harding's intimate friend, was deeply interested in the Harding memorial, and added truly that any American business man should be glad to oblige Mr. Mellon.

A DISTINGUISHED lady writer says: "When deep, powerful love calls, marriage should end in divorce." Newspapers discuss that, because it sounds new. Yet it is what the monkeys said, or would have said if they could talk, half a million years ago. Mr. Monkey would say: "When I am tired of one lady monkey, I go and find another. That's my idea of love."

BUT MONKEYS don't know their own children a year after they are born, and are not responsible for them. They haven't been entrusted by Divine Providence with the job of building a respectable civilization on this earth.

MARRIAGE is an institution not established for the amusement of monkeys or men, but for the protection of children, to establish respect for women, and to make men gradually more decent.

We should be even closer to the monkeys than we are now, but for the protection of children, which has trained men to suppress the monkey within them.

DIGGING on the site of old Carthage archeologists discovered that ladies of 2,500 years ago, in the great city at the edge of the Mediterranean, powdered and painted their faces as foolish women do now.

THE HUMAN race changes slowly. Go back 2,500 years before the day of those Carthaginian ladies and you find an old civilization on the great island of Crete, with women painting their faces white, wearing tight corsets, puffed sleeves, "full backs."

AND YOU find professional bull fighters in old Crete, young men and young women slave, captured, perhaps, on the Spanish peninsula, and forced to fight the bulls. Pictures, five thousand years old, show a young

BANKER'S WIFE OWES
\$888 FOR WASHING

MRS. ALLAN A. RYAN
Wife of New York millionaire who is being sued over an \$888.82 bill for laundry. The bill is of several months standing.

MRS. RYAN IS SUED OVER LAUNDRY BILL

New York, Jan. 8.—Mrs. Allan A. Ryan, millionaire broker's wife, has been sued in the City Court for a laundry bill of \$888.82, alleged to have been contracted from March to August, 1923. Part of that time Mrs. Ryan and her husband were living in their town house at No. 30 East Thirty-eighth street and part of the time at the Hotel Lorraine.

POLICEMAN ACCUSED OF MURDER PLOT

Adams, Jan. 9.—Police Captain Charles Daniels has been ordered before the Board of Selectmen next Monday night on Mrs. Daniels' charges that the captain tried to kill her and Beatrice, their daughter, by driving the family sedan over a 15-foot cliff.

6 KILLED AS BANDIT GANG IS WIPED OUT

West Palm Beach, Fla., Jan. 8.—The notorious Ashley gang of bank robbers, which has had its rendezvous here for years, was wiped out today by Palm Beach county sheriffs and posse. Deputy Sheriff Fred Barker and five members of the gang were killed.

High Switchboard Blamed For Poor Phone Service

MINA STELLIGTS FOR SEEKING ESTATE OF DIVORCE

Authors Pleads With Public to Believe That There is Nothing Wrong
New York, Jan. 9.—Mrs. Nina Wilcox Putnam Sanderson will proceed in her efforts to get a divorce, which were balked last week in Providence, where the court which had granted her a decree almost immediately rescinded its action until the question of her legal residence in the State was established.

Bill Provides Air Line From Boston to New York

Three more bills of Van Ness Davis were filed today by Senator Eben Draper and Representatives Starr Washburn and Leverett Saltonstall. They call for investigations by the Department of Public Works for better radial highways for Boston, including an airline highway from Boston to New Haven and New York. Also new routes to Worcester and the West. Mr. Davis is filing twelve bills dealing with civic improvements and representing an outlay of \$15,000,000.

LET UP ON KING TUT UNTIL AID ARRIVES

Luxor, Egypt, Jan. 8 (N.S.).—Howard Carter, chief of the expedition to Tutankhamen in the Valley of the Kings, today abandoned all efforts to remove the lid of the second shrine surrounding sarcophagus until new equipment arrives. Chemical preparations are needed to preserve the contents despite the fact it has remained intact in the tomb for thirty centuries. It was secured by fastenings which must be removed before the lid of the sarcophagus can be lifted.

SCHOONER FAST IN SAND; MAY NOT FLOAT

Point of Pines N. Y., Jan. 8.—Wreckers today examined the four-masted schooner Perry Sater, fast in the sand off Sater, to determine whether she was too badly damaged to be refloated. Heavy seas were running when the schooner ran off her course in the fog. Coast guardmen rescued the crew.

Members of "Poanuts" Galligan Gang, All Under 16, in Many Handouts

Four youthful bandits, members of the notorious "Poanuts" Galligan gang, were sentenced to long terms in State institutions in Cambridge court today when they pleaded guilty to holding up and robbing Peter Lyons, a policeman of the East Cambridge station, and his sweetheart, Dorothy L. Condon, a dancer, on the night of December 1.

LONG JAIL AMERICAN'S TERMS FOR CHARGES YOUTHS BACKED UP

Members of "Poanuts" Galligan Gang, All Under 16, in Many Handouts

Four youthful bandits, members of the notorious "Poanuts" Galligan gang, were sentenced to long terms in State institutions in Cambridge court today when they pleaded guilty to holding up and robbing Peter Lyons, a policeman of the East Cambridge station, and his sweetheart, Dorothy L. Condon, a dancer, on the night of December 1.

Members of the gang, none over sixteen years of age, drove a stolen car along Carlton street, Cambridge, until they came to Patrolman Lyons' car, parked in a lonely spot. They held up Lyons and the girl at the point of revolvers. Lyons declares the gang robbed him of \$125.

The four boys told the court, when they pleaded guilty and asked for leniency, that all they secured from the policeman was \$2.00 in cash and a pint of liquor. The sentences were: Walter Shulter, sixteen, of No. 257 Broadway, Cambridge, five years and one day in the Concord Reformatory; Robert Wise, sixteen, No. 465 Shawmut avenue, Boston, four to six years in Charlestown State prison; Joseph O'Brien, sixteen, No. 42 Tremont street, Cambridge, five years and one day in Concord Reformatory; Vincent O'Brien, sixteen, No. 235 Essex street, Cambridge, indefinite term in Concord Reformatory.

The leader of the gang, Thomas "Poanuts" Galligan, was with the others at the time the policeman was robbed. Two days after the robbery he was sent to Charlestown State prison for eight to ten years for the crew.

VETS' BUREAU APPEAL SECURES MANY JOBS
The U. S. Veterans Bureau, as a means of securing employment for rehabilitated veterans of the World War, has mailed a pamphlet to each

of the 7,500 members of the Chamber of Commerce describing the personnel and abilities of veterans who have been trained in occupations where their disabilities will not act as handicaps. Already many positions have been

promised the veterans through this plan. The men available cover a wide field, including bookkeepers, accountants, salesmen and mechanics. None of the men is incapacitated for the position for which he is trained.

FIND MISSING LYNN MAN'S BODY IN RIVER
The body of Edward Mallett, middle-aged Lynn shoe worker missing from his boarding house for a week,

was found floating in the Saugus River today. No marks of foul play were found, but police were unable to determine how long it had been in the water. Mallett lived at No. 89 Willow street, Lynn.

3 RAILWAY EXPRESS THIEVES PROBATED
Three employees of the American Railway Express Company pleaded guilty in stealing merchandise valued at \$120 from their employer

in Municipal Court today and were placed on probation with the agreement that they make restitution. They are Harry Walters of Mattapan, John Mulcahy of Dorchester and George McCarron of Charlestown.

COP WITNESS IN THEFT CASE IS OUSTED

West Springfield Patrolman to Fight His Removal on Mysterious Charge

Springfield, Jan. 8.—Harry W. Howell, member of the West Springfield police department, was removed from the force today by Chief Marshall A. Delaney because he was subpoenaed as a defense witness in an assault and robbery case which never came to trial. At the time of the assault Howell was a janitor at the Bridge street school in West Springfield.

The policeman was removed from his position in the presence of District Attorney Charles H. Wright and Assistant District Attorney Charles H. Calkins. More than a year ago, Wilfred H. Hooton of West Springfield claimed he was held up by John Brown and Frank Quinn, while passing the school house. He claims he was dragged into the school house, beaten over the head and robbed of \$40.

When the men were charged with robbery and assault they subpoenaed Howell, by whom they hoped to prove no assault had occurred. Before the trial, however, the men pleaded guilty to the single charge of assault. Brown was sent to jail for nine months and Quinn for three. Some time later Howell was appointed to the police force.

The West Springfield police department is not under civil service, but it declares he was not appointed to the selection.

VETERAN JANITOR OF STATION 4 DIES

"You've been here a long time, haven't you, Joe?" asked Police Captain Herbert W. Goodwin of the Lagrange street police station of Joseph Ernst, fifty, janitor of the station, last night.

"Yes, sir, eighteen years, captain," replied the janitor. "Eighteen years. That's a long time," commented the skipper. Ernst was found dead on the kitchen floor in his home this morning. He had been out of bed but a few minutes. His family heard the sound of a falling body and hurried to investigate. They found him lifeless on the floor. Death was due to natural causes.

girl sitting a maddened bull by the horns and vaulting over its back.

They had boxing matches, also. Sometimes they fought with gloves of solid metal. A right or left swing could crash in the side of the skull. That would not please referees, expensive heavyweight champions of today.

IN CANADA a bank bandit is sentenced to life imprisonment, with "thirty lashes to be given at the rate of ten a month for three months."

Life imprisonment is probably all right. But why the lashes? You wouldn't lash a rat caught in a trap. Men do to each other, from old habit, what they wouldn't do to a rat.

THE FRENCH are worried about the franc and may well be. It fell to a new low price yesterday, more than twenty francs per dollar. It used to be five for a dollar.

The French government expelled Daynes, a Dutch banker, accused of "alarmist statements about the fall of the franc." The French should read and carefully think over a speech just made by Monsieur Briand at Nantes, warning his constituents to abandon militarism and go back to French democratic methods.

That is what the franc needs. Expelling Dutch bankers won't solve the problem.

Filene's Automatic Bargain BASEMENT

Second big day of our great 15th anniversary ready Thursday at 9

We are celebrating this week the opening 15 years ago of a DIFFERENT kind of basement store. That its unique methods have been successful is proved by the fact that in these 15 years its business has increased to 23 times its first year's volume. Briefly this is the plan of Filene's Basement: TO BUY surplus stocks, odd lots, manufacturer's clearances, mill overstocks, seconds and any dependable merchandise which for any reason can be bought underprice. TO SELL under a plan which automatically makes bargains by making the first prices extraordinary or we must pay the penalty of 25% automatic reduction after 12 selling days, 50% automatic reduction after 18 selling days, 75% automatic reduction after 24 selling days. Goods given away to charity after 30 selling days.

over a million dollars' worth of bargains—biggest floor space—biggest values—you know our reputation for conservative statements

648 prs. children's or girls' shoes \$1
Mostly brown lace heels—used lace, discounts—10c—outside or young ladies—size 1 to 3 and 3 1/2 to 4 in. last.

MRS. BASSETT'S MOTHER EXPECTS A TO MAKE SETTLEMENT

WIFE TO SET PRICE ON NINA'S MANAGER

Continued from First Page

When Nina of stealing her husband, fell through. The conference was to have been held at the office of Mrs. Bassett's attorney in New Haven according to Mrs. Bassett's mother, Nina, Mrs. Bassett and Mrs. Bassett's mother were to have talked the whole matter over and try to come to some settlement. But Nina did not appear. The details of the proposed conference were disclosed to the reporters by Mrs. Colla Petri, mother of Mrs. Bassett. Mrs. Petri chuckled as she related the story.

"Gertrude has already started for the office of Judge Zacher in New Haven," Mrs. Petri said. "I am sure right over there now on the next bus so you will have to pardon me if I leave you."

HOPES TO SETTLE

"You see, Nina has about decided that she does not want anyone of this publicity," Mrs. Petri said. "She is going to meet us at the lawyer's office and talk the matter over. I hope that there will be a settlement."

Mrs. Petri then boarded the passing bus and disclosed to the direction of New Haven. But the smile was gone when she related that for Nina had remained in her room in a New York hotel.

When the reporters reached the office of Judge Zacher he refused to either see or talk with them.

Later when called on the telephone Judge Zacher declared that he never took any of the affairs in advance and I never discuss my client's affairs in the newspapers. I have been in the law business for thirty years and I have never done it yet and won't start now."

SENDS \$15 A WEEK

Meanwhile in Madison the principal topic of conversation is Nina Bassett and his alleged "affair" with Nina Wilcox Putnam. Bassett for years has been one of the most popular young men in this town. He was "Gill" to all.

His recent quarrel with the town is producing him. They point out the fact that a son of a well-to-do family and a public library and say "What a shame to leave a woman like that and a son of a well-to-do family."

An American reporter learned today from a reliable source that young Bassett is sending his wife \$15 a week to help support her.

With that and the money she earns at her two jobs she is buying for a course in night school where she is preparing to go into business.

Shielded Husband in Divorce, Nina Says

New York, Jan. 8.—Biting fiction, though she is such a well-known figure in the Netherlands, Nina Wilcox Putnam Sanderson, the novelist, detailed an interview in which she outlined her real belief in old-fashioned marriage and morality and denies the "love story" created of her relations with the Ellsworth Bassett household, and recalls other statements of her own or of others which conflict with such a belief.

Her slightly graying hair spread over the lovely white slip, her voice betraying the break of her nerves, that her indomitable dress and eyes betraying the weakness, she spoke.

"The stories which Mrs. Gertrude Bassett, wife of my business manager, has given out are absolutely without foundation."

FORCED TO DIVORCE

"I have always believed in marriage and have no peculiar ideas about divorce. I believe in divorce only under extreme necessity."

"I should like the friends when I believe I have made through my writings to trust me to have taken no such step as my recent application for divorce from Mr. R. L. Sanderson except under extreme circumstances."

"Publication of anything to the contrary has been made under a most regrettable misapprehension. I wish to recall such stories."

"I have always believed in and loved for the American home. I still do. I have no extraordinary belief about divorce. I know that under extraordinary circumstances it must be resorted to. My present

ELLSWORTH BASSETT, WIFE, CHILD

Photo of Mrs. Grace Bassett and child was taken before she left for her lawyer's office to arrange a settlement, her mother says, with Nina Wilcox Putnam over her claim that the novelist has alienated the affections of Bassett. The novelist, however, did not go to the conference.

application for divorce was absolutely necessary. Under ordinary circumstances I would not have done it.

"To me, the American home is not only the most sacred institution in the world, but the most necessary to the salvation of civilization as we now understand it."

"I have never knowingly hurt anybody's home, because I would not like any one to hurt mine."

"I have a small boy who is the most precious thing on earth to me. How could anyone imagine that I would do something to jeopardize his future in any way?"

"To me it seems that the greatest service an American woman can do is to produce an American child of the future. In all my years I have tried to reach that goal."

She slightly graying hair spread over the lovely white slip, her voice betraying the break of her nerves, that her indomitable dress and eyes betraying the weakness, she spoke.

SHAW CONTESTS

Continued from First Page

Mrs. Shaw faithfully look after Mr. Shaw's pet dog.

Mrs. Shaw provided for payment of \$1500 annually to her husband and \$1500 annually to Albert W. Shaw, Harry B. Chessman, Samuel W. Foster of Dedham and Bradford L. Howe.

The sum of \$1500 each is bequeathed to the Massachusetts S. P. C. A. New England Furber Home for Crippled Children, Massachusetts Society for Prevention of Cruelty to Children, Boston Floating Hospital, Boston Nursery for Blind Babies, Children's Hospital, Boston Tuberculosis Association, Children's Aid Society in Children, Children's Aid Mission and the Massachusetts General Hospital.

The will provides that after the death of Mr. Shaw the residue of the estate shall be divided equally between the Children's Hospital, the Massachusetts General Hospital and the Children's Aid Mission.

The filing of the notice of contest by Mr. Shaw led the court to appoint Frederick Ramsey as special administrator, representing the court and his bond was fixed at \$20,000.

His wife as executor and trustee of the estate.

WIFE TO SET PRICE ON NINA'S MANAGER

Continued from First Page

for a moment by some heavy wires ased as from mortal injury."

The reason for the alleged attempt at their lives, the police captain's wife declares, is that she and Beatrice, a young woman of eighteen, discovered that Daniels had an evening appointment to meet one of the nurses of the Flunkett Memorial Hospital. A dark doorway in Mill street was the rendezvous.

Mrs. Daniels and Beatrice, the mother says, were waiting in the next doorway when the captain drove up in his family sedan and the nurse stepped out to join him.

With a scolding cry she declared, jumped in front of the car and dared Daniels to drive it over their bodies.

Then, suddenly, they were dragged around to the side door, dragged the nurse to the sidewalk and getting into the sedan ordered "Thank you" and took them home to No. 62 Spring street.

"He drove us at high speed down the street in the direction of North Adams," his wife says, "and at their main road suddenly left the main road and turned off in the direction of the cliff."

"We were fearful of the speed for the car was so fast that it was a real alarm until it jumped out. If it had not been for the wires we ran into."

The bitterness in the family became a matter of public knowledge and the subject of scandalous gossip when Mrs. Daniels walked to the nearest telephone and, calling police headquarters, called Night Captain Brothers to send the police automobile out into the country for herself and Beatrice.

When the women had been carried home, Captain Brothers went back to the scene with a truck and spent several hours pulling the sedan into the road from the place where it had fallen. There, alone about midnight, he says, he suddenly was confronted by Captain Daniels, who told Brothers he would "be in in the morning and explain everything."

Captain Daniels did not come in in the morning. He has not reported the duty since. Something after 5 o'clock he was registered at the Hotel Parkview in North Adams. Since that time he has retained Attorney Frank Cassidy, a brother of the late Captain Daniels, who has asked that public judgment be suspended until Captain Daniels has had the opportunity to tell his side of the story.

Captain, veteran of the Spanish War and the Philippine expedition, has been a member of the Adams police force ten years and is forty-five years old. He was promoted to a category one year ago for conspicuous bravery in several fights with rum runners.

He came out of one of his encounters with a bullet in his arm, and was a patient for several weeks in Flunkett Memorial Hospital. There, it is said, he met the nurse.

Chief of Police Cassidy has announced Captain Daniels' suspension on "unbecoming conduct," but may also charge him with failure to report for duty.

In fact, the report of the inspector

The investigation of the State inspectors corroborated an article published in this city's "Daily News" showing that much of the trouble experienced by subscribers was due to the use of switchboards so high that the operators could not reach the wires near the top of the boards without using a ladder.

The inspectors found, as told in the American, that the operators frequently received lines as "busy" rather than go to the trouble of finding out the cause of the trouble to reach the positions wanted.

Often found the high switchboards so difficult for the operators to work that he suggests in his report that the telephone company add airplanes to their equipment for the use of the girls.

Frequently it was found that when the girls did endeavor to establish connections in positions on the board almost beyond their reach, they plugged in the wrong numbers, resulting in delay and frequent complaints from subscribers.

The inspectors found that the poor telephone service was largely due to the human situation—the careless or negligent work of the operators, chief operators, supervisors and their assistants.

Many cases were found where three and sometimes four persons were connected on the same line, making answer in a telephone call a very doubtful quantity. Careless work of the operators was blamed for this condition.

Inspectors also found calls for information in many cases were simply ignored and the rate subscribers left to come helplessly into the dead telephone transmitter.

NEW SCHEME IN USE. It was also found that once a call was started by a subscriber it was not impossible to call back the operator. Oftentimes the operator neglected the number sought by the subscriber or made a mistake in repeating it and then went through with the call, paying no attention to the frantic efforts of the person calling to get her back on the line to correct her.

In fact, the report of the inspector

WIFE TO SET PRICE ON NINA'S MANAGER

Continued from First Page

not miss wires in describing the wife of the high switchboards. The report covering this phase of the investigation says:

"We noticed in several of the larger exchanges that it was almost impossible for the average operator, and certainly for the small sized ones, to reach the high multiples."

"We are obliged to refer to this because it is one of the reasons for wrong numbers, double connections and abandoned calls. The boards are too high and on such boards a girl is more often off on her toes on the rung of her chair, or she is looking 'straining to the very limit to reach the high multiples."

"They can talk to us until the cows come home, but work on such boards is a nerve-racking, physical strain. It was so noticeable in several instances that it suggested the addition of airplanes to the equipment."

AMERICAN'S STORY. The investigation of the State inspectors corroborated an article published in this city's "Daily News" showing that much of the trouble experienced by subscribers was due to the use of switchboards so high that the operators could not reach the wires near the top of the boards without using a ladder.

The inspectors found, as told in the American, that the operators frequently received lines as "busy" rather than go to the trouble of finding out the cause of the trouble to reach the positions wanted.

Often found the high switchboards so difficult for the operators to work that he suggests in his report that the telephone company add airplanes to their equipment for the use of the girls.

Frequently it was found that when the girls did endeavor to establish connections in positions on the board almost beyond their reach, they plugged in the wrong numbers, resulting in delay and frequent complaints from subscribers.

The inspectors found that the poor telephone service was largely due to the human situation—the careless or negligent work of the operators, chief operators, supervisors and their assistants.

Many cases were found where three and sometimes four persons were connected on the same line, making answer in a telephone call a very doubtful quantity. Careless work of the operators was blamed for this condition.

Inspectors also found calls for information in many cases were simply ignored and the rate subscribers left to come helplessly into the dead telephone transmitter.

NEW SCHEME IN USE. It was also found that once a call was started by a subscriber it was not impossible to call back the operator. Oftentimes the operator neglected the number sought by the subscriber or made a mistake in repeating it and then went through with the call, paying no attention to the frantic efforts of the person calling to get her back on the line to correct her.

WIFE TO SET PRICE ON NINA'S MANAGER

Continued from First Page

for a moment by some heavy wires ased as from mortal injury."

The reason for the alleged attempt at their lives, the police captain's wife declares, is that she and Beatrice, a young woman of eighteen, discovered that Daniels had an evening appointment to meet one of the nurses of the Flunkett Memorial Hospital. A dark doorway in Mill street was the rendezvous.

Mrs. Daniels and Beatrice, the mother says, were waiting in the next doorway when the captain drove up in his family sedan and the nurse stepped out to join him.

With a scolding cry she declared, jumped in front of the car and dared Daniels to drive it over their bodies.

Then, suddenly, they were dragged around to the side door, dragged the nurse to the sidewalk and getting into the sedan ordered "Thank you" and took them home to No. 62 Spring street.

"He drove us at high speed down the street in the direction of North Adams," his wife says, "and at their main road suddenly left the main road and turned off in the direction of the cliff."

"We were fearful of the speed for the car was so fast that it was a real alarm until it jumped out. If it had not been for the wires we ran into."

The bitterness in the family became a matter of public knowledge and the subject of scandalous gossip when Mrs. Daniels walked to the nearest telephone and, calling police headquarters, called Night Captain Brothers to send the police automobile out into the country for herself and Beatrice.

When the women had been carried home, Captain Brothers went back to the scene with a truck and spent several hours pulling the sedan into the road from the place where it had fallen. There, alone about midnight, he says, he suddenly was confronted by Captain Daniels, who told Brothers he would "be in in the morning and explain everything."

Captain Daniels did not come in in the morning. He has not reported the duty since. Something after 5 o'clock he was registered at the Hotel Parkview in North Adams. Since that time he has retained Attorney Frank Cassidy, a brother of the late Captain Daniels, who has asked that public judgment be suspended until Captain Daniels has had the opportunity to tell his side of the story.

Captain, veteran of the Spanish War and the Philippine expedition, has been a member of the Adams police force ten years and is forty-five years old. He was promoted to a category one year ago for conspicuous bravery in several fights with rum runners.

He came out of one of his encounters with a bullet in his arm, and was a patient for several weeks in Flunkett Memorial Hospital. There, it is said, he met the nurse.

Chief of Police Cassidy has announced Captain Daniels' suspension on "unbecoming conduct," but may also charge him with failure to report for duty.

PLAN WRIT TO HALT PAYMENT OF \$100,000 BOK PEACE PRIZE

RAISE CRY OF 'PACKED JURY'

Hint Charges May Be Made That Mails Were Used in Scheme to Defraud

New York, Jan. 9.—A hornet's nest of dissimulation has been stirred up by what is characterized as unfair methods on the part of the jury of award in faking the \$100,000 prize in the folk world peace contest.

Manuscript proceedings probably will be brought within forty-eight hours to compel the jury of award to continue in session until every member has read every one of the 21,000 old plans submitted in the contest.

This, it is declared, is required by the conditions of the contest. The jury of award admittedly has read nothing more than summaries or excerpts of a limited number of the plans that survived the process of elimination applied at the headquarters of the American Peace Award.

ROOT ACCUSED.

The complaint is made that Ethel Root, chairman of the jury of award, read the winning plan, and nothing more.

Formal complaint is being planned by some contestants for submission to United States Attorney Haywood, charging violation of the mail laws in the conduct of the peace prize contest.

Asked what action he will take if such a complaint is placed before him, Colonel Haywood said: "I will take appropriate action if complaints are submitted to me."

The office of Frank Hendrick, attorney No. 123 Broadway, has been a clearing house for dissatisfied contestants. A number of contestants were in conference with Mr. Hendrick today.

A committee will be formed for the purpose of defending the rights of all contestants.

LEGAL ASPECT OF CASE.

The claim is that the \$100,000 prize has been illegally and unfairly awarded, and that until a legal and proper award is made every person who entered the contest has an interest in that \$100,000.

Under the circumstances the legal aspect of the controversy is that: That it would be entirely competent for any contestant to apply for either a mandamus, such as is described above, or an injunction restraining Mr. Bok and the policy committee from paying over the amount of the award and from proceeding further with publicity and the referendum until the award has been actually made in strict compliance with the terms of Mr. Bok's offer.

One distinguished visitor to Attorney Hendrick was Miss Emily C. Curtis, daughter of George Ticknor Curtis, official biographer of Daniel Webster, and one of his executive and niece of Benjamin Robbins Curtis, a justice of the United States Supreme Court.

Miss Curtis said: "I have been a student of this question for seventeen years, and I spent a great deal of time and effort in preparing a serious paper in response to Mr. Bok's offer. I feel that I am in the same position as those who are treated as though their efforts were treated without adequate attention by the persons administering Mr. Bok's enterprise."

Meanwhile, contestants are advised not to make their peace plans public for the time being and until the award is legally made. In compliance with the terms of Bok's offer, to do so would disqualify them.

Innocent Victim

NELLIE DEVITO FOSCANO

EAST BOSTON MAN JAILED FOR BIGAMY

Married 16-Year-Old Revolted Girl After Deserting Wife and Two Children

Springfield, Jan. 9.—Philo Foscano, twenty-three years old, who deserted his young wife and two small children in East Boston to elope with Nellie DeVito, sixteen years old, No. 26 Cleveland street, Beverly, was sentenced to the House of Correction for a year in District Court here for bigamy.

Foscano admitted he had two wives and pleaded for a lighter penalty when Judge Healy imposed the sentence.

According to the testimony, Foscano married Miss DeVito on November 27 in Thompville, Ct., as a solution to a statutory charge brought by Mrs. Elizabeth DeVito, the girl's mother. Foscano pleaded guilty and married the girl under the alias Antonelli. It is alleged.

While living here with his new wife, a warrant was issued charging him with failure to support his family in East Boston. The bigamy complaint followed. Foscano appealed from the sentence and was held in default of \$1,500 bail for the May term of the Superior Court.

Foscano's first wife was Miss Josephine DeLatt of East Boston.

BROKERS' HEAD PETITIONED IN BANKRUPTCY

25 Investors in Day & Co. and Wellington Co. Testify Before Grand Jury

Twenty-five investors in T. J. Day & Co. and the Wellington Co., brokers whose stock transactions are under investigation by District Attorney O'Brien, testified today before the Grand Jury. Police Inspectors Farrell and Haggerty, who worked on the case, also testified.

Joseph M. Knawier, president of the two firms, was petitioned into bankruptcy by three Haverhill creditors today. Thomas Morgan claims \$700 securities deposited as collateral, Horace Gleckman \$10 in wages, and Colla Chidnowsky \$133.60 money due on trading account.

Knawier has been sought by the police since it became known that slightly "petting parties" in an apartment on Commonwealth avenue, Allston, figured in the operations of the two companies. Men and women interested in getting rich quick were guests at these parties, according to police.

10,873 LOCOMOTIVES AWAITING REPAIRS

New York, Jan. 9.—On December 15, 10,873 locomotives, or 14.3 percent of those owned by American railroad companies, needed repairs, an increase of 301 since December 1, according to the American Railway Association.

MANIAC FORCES YOUTH TO DIG OWN GRAVE

Connecticut Boy Escapes Madman by Felling Latter With a Blow From a Shovel

Danbury, Ct., Jan. 8.—Edward Plinkham, sixteen, of East Killingsbury, escaped from being forced to dig his own grave when he struck his captor, Everett Harrington, formerly a patient at the Norwich Hospital for the insane, over the head with a shovel, knocking him unconscious.

According to Plinkham, Harrington had asked him to accompany him to a mill to help do some work and when they reached the mill Harrington closed him and threw him on the ground, threatening to back him to pieces with a hatchet.

Instead of carrying out his threat he forced the boy to walk with him to the cemetery in Westfield where, with the aid of skeleton keys, the demented man opened the tomb house, procured a shovel, pick and crowbar and told Plinkham he was going to make him dig his own grave and bury him alive.

While walking through the woods nearby Plinkham took advantage of an opening and felled Harrington with the shovel.

The State police are searching this section of the State in an effort to capture Harrington.

Cable Briefs

Moscow.—The Anglo-Afghan situation is most serious. Anglo-Indian forces were today reported concentrating near the Afghan power.

And the druggist answered. —"REM for coughs"

—How a whole family found relief in REM—

When Mr. David H. Wakelee, 2524 S. Mole St., Philadelphia, found that his wife's cough was getting no better—he asked his neighborhood druggist what was the best cough medicine he had in stock.

And when he left the store (Davis' Drug Store, at Lambert and Jackson Sts.), he had a bottle of REM tucked under his arm.

Mrs. Wakelee tells what followed:

"Last winter I had a terrible cough that lasted two weeks. No sooner would bedtime come than I'd start coughing. Often it would keep up most of the night—I'd hardly get to sleep before another coughing spell would wake me up. My throat was all choked up with phlegm, but I couldn't get rid of it.

"Nothing helped me any till my husband brought me home a bottle of REM. I took a dose that evening and slept the whole night through. It soon loosened the phlegm and got rid of my cough.

"Since then my husband—he's a conductor on the P. R. T.—and my three sons have all used REM. We all think it's great and are very thankful to Mr. Davis for telling us about it."

REM contains a special ingredient which this year alone is costing over \$20,000.

This \$20,000 could have been saved, but instead, it is put into REM to make it more effective.

REM doesn't taste a bit bad. Nor does it contain Opiates.

Your druggist will gladly supply you with REM, and any time you'd rather have your money back, you're welcome to it.

Introductory Size Bottle, only 60c Economy Size, \$1.00

Your Drug Store Has REM—ask for it

THREE SEIZED AS TEA STORE BANDITS AFTER GIRL'S TIP ON PHONE

IDENTIFY ONE GUNMAN

Suspects are Rounded Up in Dorchester at Point of Revolvers

Acting on information furnished them over the telephone by an unidentified girl, police of Dudley street station raided a house on Hamlet street, Dorchester, and arrested at the point of revolvers three men suspected of having staged three hold-ups in chain grocery stores in Dorchester.

One of the trio was later identified as two of the store clerks as one of the bandits who robbed them. Police allege they found several in the possession of two of the men and cartridges in the pockets of the third.

Police failed to learn the identity of the person who gave them the tip of the whereabouts of the men arrested.

"Go to that house," said a female voice on the wire, "and you will find three fellows who have been robbing of the robbers in Dorchester."

The police did not hesitate and took the men unaware as they were about to leave the house. Facing the drawn revolvers of the police the three young men surrendered without a struggle.

The men gave their names and addresses as John Neville, twenty-three years old, Aracy and Navy, M. C. A. Charlesworth, Edward McLaughlin, nineteen years old, formerly of Somerville, William Hyton, twenty-three years old of Dover, N. H.

Questioned by the police, Hyton is alleged to have said that the trio were on their way to stage a hold-up of a chain grocery store when they were arrested. All, however, denied implication in the three holdups.

A 45-caliber revolver and a .38-caliber revolver were found in the possession of McLaughlin. In the pockets of Hyton, the police say, they found a number of cartridges.

Neville was later identified as one of the bandits who participated in one of the holdups. Samuel Hibber of David Miller, clerk in two of the stores which were robbed, picked up one of a line of suspects.

The bandits, working independently, staged the holdups almost simultaneously and secured with a total of \$65 in cash.

The stores which were victimized are the Rose Tea Company, No. 114 Third street; the Rose Tea Company, No. 223 Dudley street, and the Atlantic and Pacific Tea Company, No. 118 Stoughton street, Dorchester.

Samuel Hibber, clerk at the Third street store of the Rose Tea Company, walked forward to wait on what appeared to be two customers who entered his store. He turned to comply with their request to purchase an article. When he again faced his "customers," he also looked into the muzzles of revolvers held in the hand of each of the men.

The bandits forced Hibber to retreat into the cellar of the building, and after shutting the door after him, looted the cash register of \$25 in cash, and escaped. Hibber climbed through a cellar window and reported the robbery to the police.

About the same time the police were informed that the Dudley street store of the Rose Tea Company had been entered by a lone customer, who held up the clerk, David W. Miller, and looted the cash register of \$4 in cash. Miller saw the bandit flee from the store and board a street car bound for the Dudley street terminal, he reported.

Closes upon the heels of this robbery, it was learned, another bandit entered the Stoughton street store of the Atlantic and Pacific Tea Company, held up John Monahan, the clerk, and looted the cash register of \$25. This bandit, under the guise of being a customer for potatoes, forced Monahan into a back room and shut the door behind him.

HOW DORCHESTER STORES WERE ROBBED AND THREE VICTIMS

DEMAND STORE CASH AT GUNPOINT

Clerk Samuel Hibber of the Rose Tea Company, No. 114 Third street, facing bandit's gun, showing how he looked up from his counter into the muzzle of a revolver when surprised at his work. At upper left, Clerk David Miller of the Rose Tea Company, No. 223 Dudley street, and at upper right Clerk John Monahan of the A. and P. Tea store, No. 118 Stoughton street, who were also victims of robberies conducted simultaneously in the Light's Garage section of Dorchester.

2 ALARMS FOR FEAR AMERICAN CHURCH FIRE IN DORCHESTER

Romsey Street Edifice Damaged to the Extent of \$3,000; Overheated Furnace Cause

A two-alarm fire in the Romsey Congregational Church, Romsey street, Dorchester, today caused \$2,000 damage to the building. The fire is thought to have started from an overheated furnace.

Flames were first discovered as they broke through to the upper floors. A portion of the roof was burned away.

Testing Boston's Milk Supply

is another method used in the laboratories of the Boston Health Department to check disease.

Under the supervision of Dr. F. X. Mahoney, Health Commissioner, who writes an instructive health article every day for American readers, these experts make certain the milk you use is safe to drink!

Fewer babies die now from feeding on impure milk, thanks to this great humane service.

Dr. Mahoney tells readers of the American every day about the interesting experiments made in his department to promote better health. He will also advise readers on the condition of their health upon request.

Dr. Mahoney's Daily Health Talks Will Help You.

BOSTON AMERICAN

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a mallow complexion—dark ones under your eyes—pimples—a bilious look in your face—full eyes with no sparkle. Your doctor will tell you plenty of good, of all kinds of diseases from inactive bowels and liver.

Dr. Edwards' well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by keeping up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are given by their olive color, 10c and 25c.

Olive Tablets

FILM MEN VOTE TO BAR MABEL IN BAY STATE

Unanimously Decide to Hold Up Her Release Until Further Notice

Even should Mabel Normand, famous movie actress, who is in a critical condition in a Los Angeles hospital as the result of an operation for appendicitis, recover, it is impossible that pictures in which she appears will be seen in Massachusetts again.

At a special meeting of the directors of the Motion Picture Trade Association of America, Massachusetts Branch, it was unanimously voted that the branch recommend to members of the organization the discontinuance of exhibitions of pictures featuring Mrs. Normand until further notice.

Los Angeles, Jan. 8.—The censors.

Over 900,000 Gallons of Liquor Issued as Medicine

Washington, Jan. 8.—Figures compiled by the prohibition unit show that 64,334 proof gallons of tax-paid liquors and 159,393 proof gallons of tax-paid alcohol were received during the last fiscal year by physicians, dentists, veterinarians, hospitals and industrial first aid stations.

The liquors consisted of 58,094 gallons of gin and 178 gallons of rum. During the twelve-month period hospitals and colleges received 738,284 gallons of alcohol, free of tax.

tion of Mabel Normand was reported this morning to be so grave that even her attorney was refused entrance to her room in Good Samaritan Hospital.

The famous film favorite, attendants at the hospital declared, has had several severe attacks of hypoxia. Yesterday she suffered a relapse.

FANATICS SLAY 13 POLICE IN PHILIPPINES

Two School Teachers Are Abducted by Practitioners of Weird Rites

Manila, Jan. 8.—Eleven constables and two policemen were killed and two school teachers abducted by an armed band of 2,000 "volunteers" on the islands of Pagan and Surigao, north of Mindanao.

The "volunteers" are a fanatical religious sect, given to weird and often murderous rites and are usually in remote regions of the archipelago, where they have gained considerable following among the natives. Branches are located in the San Francisco mountains of Luzon and in the mountainous regions of Mindanao.

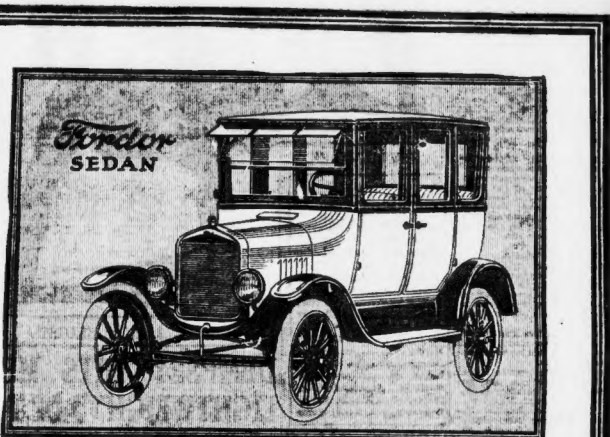

The provincial commander of constabulary in Surigao Province is pursuing the fanatics.

IF HEADACHY, SICK, BILIOUS

Harmless Laxative for Men, Women and Children

Feel fine! No griping or inconvenience follows a gentle liver and bowel cleansing with "Candy Cathartic." Sick, Headache, Biliousness, Gas, Indigestion, and all such distress gone by morning. For Men, Women and Children—10c boxes, also 50c and 10c sizes, any drug store.

Lower Priced Than Ever Before

THE many desirable qualities inherent in the Ford Sedan commend this car to the consideration of every discriminating motorist.

LEONARD, EX-BOX TWIRLER, GETS BUMP
"Bump" Leonard, former star pitcher of the Boston Red Sox, received a bump from Chief High Commissioner Kenneth M. Landis, K. M. L. refused to release Leonard for not reporting to T. Cobb of the Tigers in 1922, when the twirler jumped to San Joaquin Valley League.

REPORTING FROM THE RING

TOMMY ROBSON EAGER TO TEST HIS HEAVY KAYO WALLOPS

HEADED FOR DIVISION

By JACK CONWAY

These breakers ahead for Johnny Wilson, Paul Reed and the rest of the brave middleweights. All because Tommy Robson, prize of Madison, has announced that his "heavy right hand" is in the ring. He has even said that he will have a fight with the champion of the world, Jack Dempsey, if he can get a good man of 150 pounds to fight him.

Tommy Robson, who has been a middleweight champion, is now a heavyweight. He has been a champion of the world, and he is now a champion of the world. He has been a champion of the world, and he is now a champion of the world.

Robson is now a champion of the world. He has been a champion of the world, and he is now a champion of the world. He has been a champion of the world, and he is now a champion of the world.

Robson is now a champion of the world. He has been a champion of the world, and he is now a champion of the world. He has been a champion of the world, and he is now a champion of the world.

LACTIC ACID ADDED TO BABIES' MILK CUTS DEATH RATE

INFANTS RATHER IMPROVE

Children's Hospital Expert Describes Great Benefits of Method

By GRACE DENKRAMPS
"By 're saving babies' lives with lactic acid."
Those little mites that lift their voices only in a wail are being made into rollicking babies with good digestions at the Children's Hospital.

The yearly quota of small citizens who pass out of existence each year because there is no food which they can digest, is going to be the smallest in history, this year.
And next summer the fear of depending upon cow's milk somewhere in the country, will not keep the family tied to the city.

They're taking in two-day old babies at the Children's Hospital, and giving them whole cow's milk.

CURD IS REDUCED.
Lactic acid is added to the whole milk, reducing the curd, excreting a favorable action upon the gastric juices, and destroying bacterial growth in the milk.

And then they add corn syrup to the milk thus treated. "And what 'em grow," says Dr. Paul W. Emerson, the baby specialist in charge of the infants' department at the Children's Hospital.

The acidifying of whole cow's milk, a recent discovery made by Dr. W. M. Marriott, the famous American pediatrician, in charge of the St. Louis Children's Hospital, has been introduced into the Children's Hospital, in Brookline, with unusual results.

"The discovery of acidified milk by Dr. Marriott is undoubtedly one of the most important contributions to infant feeding ever made," declares Dr. Emerson.

IN GENERAL USE.
"We began to use it several months ago and it is now in general use in the infants' department of the hospital under the direction of Dr. Harold P. Stuart."

"It is undoubtedly of great benefit to underweight and young infants who are unable to digest other varieties of milk."
"Buttermilk, of course, is much better tolerated by infants than sweet milk, due to its acid content. Its digestibility is much higher. When you introduce cow's milk with lactic acid-producing organisms, you make its digestibility almost, without making its digestibility, and with the addition of a carbohydrate, pro-

Mother Takes Poison

MARY ROBERTS

BABIES WANT, MOTHER TAKES POISON

Young Wife Prefers Death to Misery, Husband Being Jobless

The art of Elbert Roberts, twenty-seven years old, in swallowing bicarbonate of mercury in the treatment of her melancholia, Mrs. Roberts, of No. 103 Eighth street, South Boston, has served to call Boston's attention to the plight of a young husband in his death, without employment and with three little children to care for.

Mrs. Roberts, her life despaired of, was hurried to Boston City Hospital, where her condition appeared so grave that her name was written on the "danger list."

"What can we do," he asked, "when daughters of the so-called best people come out stricken exactly in the same way, and abnormally in pain; carry a bottle of liquor; dance as voluptuously as possible and engage in violent 'petting parties'?"

Theresa, N. Y. Jan. 9.—If all the women in the United States were like the cooals at Cornell, the Volstead act would be enforced to the letter, according to Leonard Theodore H. Twiss, Cornell University's professor. He said:

"I believe there is less drinking at Cornell than in any other large university in the country. This, I think, is due largely to the activities of the girls, who have refused to dance with a man who has even a faint smell of liquor about him."

"The girls have banded together and refused to permit drinking at any social function."

struggle of 1899, a concord that reached its highest expression in the first years of autonomous government.

"He has placed himself over and above the laws passed by the Philippine Legislature, laws that have never been declared null and void by the courts or by the Congress of the United States."

"He has claimed for himself an unlimited, executive responsibility that neither the existing laws nor the practice already established have recognized."

"He has deviated from the policy of the American government to give the Philippine people an ever-increasing self-government, a policy announced by every President beginning with President McKinley and ratified by the Congress of the United States in the Jones law."

"Governor General Wood" said the position, "has set at naught all understanding the Filipino people have had with the American government."

"He has ignored the assurance given them by the late President Harding that he has most decidedly taken a backward step by depriving our government of the day and the nerve center of the former autonomous administration—the council of the Philippines."

"He has surrendered himself with a secret cabinet composed of military and other extra-legal advisors, who have usurped the legitimate functions of the Philippine office of the government."

"He has broken asunder the bonds of concord that united Americans and Filipinos after the bloody

Are Girls in College Disrupting Society?

New York, Jan. 9.—An army of "hard drinking, cigarette puffing, licentious Americans" has invaded the college campus, Dr. Charles J. Smith, president of Roanoke College, Salem, Va., declared at the opening of the National Lutheran Educational Conference.

Drinking, dancing and social immorality, Dr. Smith charged, had disrupted college social life, and even had extended to theological seminaries.

"What can we do," he asked, "when daughters of the so-called best people come out stricken exactly in the same way, and abnormally in pain; carry a bottle of liquor; dance as voluptuously as possible and engage in violent

ASKS CHANGE IN LAW FOR INSANE PATIENTS

Dr. Kline Wants Time on Actions for Their Support Extended

Dr. George M. Kline, Commissioner of Mental Diseases, appeared before the legislative joint committee on legal affairs today and asked that the time within which actions as to the support of insane public charges may be brought be increased to twelve years.

The present law provides that suit may be brought to recover for support of insane persons, only for a period of six years, representing roughly \$2,000.

Dr. Kline said he referred to cases where insane patients were recipients of legacies after they had been committed. Representative Gilmore of Melrose and Clements of Wakefield brought out the fact that if the law were amended it would permit suits to be brought against relatives of the insane and might leave them destitute.

Another bill which Dr. Kline supported, called for a change in the law providing that if a patient is regularly committed to an institution, it must be done by the judge who committed the patient for observation. In many cases, Dr. Kline said, the original judge is transferred or dies.

Another fault in the present law, he said, was the provision that the patient committed regularly must be committed to the institution in which he was held for observation. He said he would permit the committing judge to send a patient to whatever institution had the most room.

A third bill provided that the Department of Mental Diseases be notified whenever a patient in an institution has a fire extinguisher rather than to appropriate \$4,000 for the purchase of a truck to be used in pushing a flats snowplow. It was pointed out that the truck could be used for hauling sand in the summer.

The hand truck proved itself of inestimable value in maintaining support buildings when the last hotel in the city had burned. Of course as a fire extinguisher the truck doesn't measure up, but what does Princeton want with a fire extinguisher?

TO QUESTION M'LEAN AT PALM BEACH

Washington, Jan. 9 (U.S.A.)—Satisfied with the explanation given in writing by Edward B. McLean, Washington newspaper publisher of the \$100,000 unsecured loan he made to former secretary of the Interior, Albert B. Fall, in 1911, the Senate Public Lands Committee today day to send a sub-committee to Palm Beach, Fla., to interview McLean, who is said to be too ill to come here.

which he was held for observation. He said he would permit the committing judge to send a patient to whatever institution had the most room.

A third bill provided that the Department of Mental Diseases be notified whenever a patient in an institution has a fire extinguisher rather than to appropriate \$4,000 for the purchase of a truck to be used in pushing a flats snowplow. It was pointed out that the truck could be used for hauling sand in the summer.

The hand truck proved itself of inestimable value in maintaining support buildings when the last hotel in the city had burned. Of course as a fire extinguisher the truck doesn't measure up, but what does Princeton want with a fire extinguisher?

PRINCETON BRAINS SOLVE HARD PROBLEM

Princeton, Jan. 8.—"Hundreds for now but not one cent for fire!" Princeton has a perfectly good sand tub, of the winter of 1911, so why waste money on fire fighting?

The lawmakers of Princeton at a recent meeting voted that since the last hotel in the city had burned there was no need of wanting money on fire apparatus, on the ground that the sand tub should be used to push a flats snowplow. It was pointed out that the truck could be used for hauling sand in the summer.

A third bill provided that the Department of Mental Diseases be notified whenever a patient in an institution has a fire extinguisher rather than to appropriate \$4,000 for the purchase of a truck to be used in pushing a flats snowplow. It was pointed out that the truck could be used for hauling sand in the summer.

The hand truck proved itself of inestimable value in maintaining support buildings when the last hotel in the city had burned. Of course as a fire extinguisher the truck doesn't measure up, but what does Princeton want with a fire extinguisher?

Exactly the same goodness every time in this new loaf cheese

OLD style cheese has always been the delight and despair of the housewife. Sometimes just right. Other times soft and crumbly, with a strong raw taste; or hard and dry—half stale.

Now all this old uncertainty is banished.

The largest and finest makers of cheese in this country have perfected a new way of mellowing American, Pimiento, Swiss and Brick Cheese that gives them a deliciousness it has never before been possible to have in these varieties.

For the first time you can be sure

of always the same rich creaminess. Always the same tender firmness. The same captivating taste to delight the palate.

The delightful new delicacy—Phenix Club Cheese—comes in the popular loaf form. It cuts into dainty squares the right size for a slice of bread. The tinfoil wrapping keeps it fresh and good to the last slice.

Try this richer, creamier loaf cheese today. Four varieties—American, Swiss, Pimiento, and Brick.

HOW TO KEEP WELL

By Dr. Mahoney

(Continued from yesterday)

By DR. P. X. MAHONEY, Boston Homeopathic Physician.

BACILLI having the room of a scarlet fever patient the attendant should always wash and disinfect her hands.

Every one coughing up or spat up by the patient, or coming from his nose, or from the lips, should be washed with soap and water.

No cup, glass, plate, fork, spoon, or other eating utensil, and no clothing, should be worn off in the room of a scarlet fever patient.

Wash the face with soap and water, and the throat with a solution of boric acid.

Do not allow the patient to see or hear of the disease.

Do not allow the patient to see or hear of the disease.

Do not allow the patient to see or hear of the disease.

Do not allow the patient to see or hear of the disease.

Do not allow the patient to see or hear of the disease.

Do not allow the patient to see or hear of the disease.

Do not allow the patient to see or hear of the disease.

Do not allow the patient to see or hear of the disease.

HOUSEHOLD HINTS

A soup of young green peas is a popular dish in France. To make it cover a quart of peas with the skins and bring them to the boil, summer until soft. Rub through a hair sieve and add a handful of young peas and a little potato flour to thicken and cook until the peas are soft. It is not, however, necessary to add the peas.

When boiling salmon put enough cold water, with a little salt added, to cover the fish. The water should be brought to a boil and the fish placed in the boiling water, simmer slowly. Do not add vinegar to the water. Flan melted butter, hollandaise sauce, or creamy sauce are the usual accompaniments to a dish of hot salmon, while water is little palatable. Mayonnaise should be served with cold salmon.

To induce a canary to take a bath, sprinkle a few seeds upon the water. This added attraction will make the bird become a habit with the little fellow.

Salads to be eaten should be crisp, but crisp salads are the exception rather than the rule, just because people will put salt in the water they want it in. If only a little salt is used instead of much, a crisp salad is possible.

Lemon dipped in salt is excellent for cleaning up the furniture or carcase. Chalk, sponge afterwards with water, leaving care not to make the car too wet.

MEDBURY SAYS—

By John P. Medbury

MOST girls have gotten into the habit of changing their sweethearts so often that a lot of women are now beginning to take advantage of the fact that a girl can be engaged to a man and then break the engagement.

THIS will prevent a dame from becoming engaged to the same man twice.

WHEN a girl has seen or eight new affairs a day, she is bound for her to remember every fellow's face.

AND no matter how romantic a woman may be who doesn't want the same guy to break her heart more than once.

SHE can forget his name and what he looked like, but she can't fool her if she's got his hairpiece.

THERE will also help her to keep up on him with her girl friends.

SHE can tell at a glance just how many hearts he has broken in the same neighborhood.

IT's getting so that a man is afraid to hold a dame's hand unless he wears his gloves.

AND no dame like a fellow to carry her with a pair of victrolas.

THERE is no longer any romance in courting just that a man has to be careful not to leave his fingerprints when he goes calling on a dame.

LOVE used to be a wonderful thing until scientists took all the kick out of it.

(Copyright, 1935, by King Features Syndicate, Inc.)

DEAD LANGUAGE

"Whaddya mean, have lunch at a caterer? I'm on my way to the free lunch counter, and I'll have a couple of good ones. It doesn't matter if you're broke."

"They're going to have a pull for me up at the window tonight, George. No, don't show above and bring down a 'if' suit from the attic. I'll be with Dorothy and show her back."

"You'll have to walk to the station this morning, folks, the buses are in out of commission. Oh, Dobbin's got the rheumatism."

"The third man's gone to the city, huh? You'd better help me with the chore. The dame looks planning to spend the third day. I've never last year—come to see the sights, stop at the best hotels, and take a girl out to dinner."

The stenographer who tipped off the office craphatters that the boss was on his way up.

The bootlegger who dropped in just as the party was beginning to get dull.

The burglar who stole the bright red necktie that your wife gave you for Xmas.

The mechanical genius who located the trouble with the Greer's motor when it stalled on the way to the theater.

The doctor who told your father how to cure the sleeping sickness that afflicted his medicine was a lot of bunk.

POLLY AND HER PAIS

Well, Here's the Bare Fact of the Matter

By Cliff Sterrett

TELL THESE AT DINNER

A Highland piper, having a pupil, declined to teach his brain with the tactics of membership, minima, credits, and ex-cesses. "Here, Donald," he said, "take your pipes and give us a blast. You've been blawing in-doo! But what's a sound, Donald, without sense? You might blow for ever without makin' a tune or if I didn't tell you how the queer things on the paper help you. "You are that big fellow w' a round open face"—pointing to a member. "The member's story from that line to this, while ye hat are w' your face and give a loud blast. If now ye put a leg to him, ye mak' two of him, and ye move the table fast. If ye black his face he'll run four times faster than the fellow w' the white face. "But if, after blacking his face, ye send his legs on the big leg, he'll hop eight times faster than the white-faced chap. I showed you first. Now whenever you blow your pipes, Donald, remember this—the lighter 'most fellows' legs are tied the faster they'll run, and the quicker they'll run to do the work."

THE BEST JOKE I EVER HEARD

The Boston American will pay \$1 for published smart sayings. Address "Smart Sayings," Boston American.

While walking with my little cousin about four years ago, one hot day, she noticed an old woman loaded with ice which was melting. "Look," she said, "even the ice is sweating, it's so hot." Hearster, N.Y. Box 57 Almost week, Malden, Mass.

Voice over telephone: "Makin' in the Weather Bureau?" Answering Voice: "Oh, huh." Voice: "How about a shower this afternoon?" Answering Voice: "If you need one take one." BERTY SMOKE, 308 Chestnut street, Mass.
